

OUTPUT SCREENSHOT

Q1. Abstract_Students

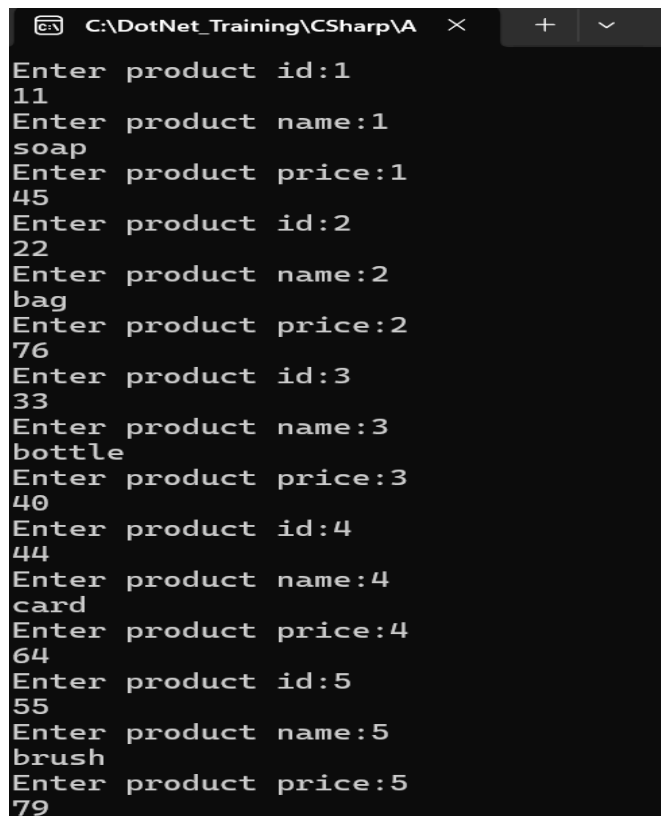

```
C:\DotNet_Training\CSharp\A X + v

Undergraduate Student
Passed: False

Graduate Student
Passed: True
```

Q2. Products_Sorting

```
C:\DotNet_Training\CSharp\A X + v

Enter product id:1
11
Enter product name:1
soap
Enter product price:1
45
Enter product id:2
22
Enter product name:2
bag
Enter product price:2
76
Enter product id:3
33
Enter product name:3
bottle
Enter product price:3
40
Enter product id:4
44
Enter product name:4
card
Enter product price:4
64
Enter product id:5
55
Enter product name:5
brush
Enter product price:5
79
```

```
Sorted Products by Price:
P_Id: 33,P_Name: bottle,P_Price: 40
P_Id: 11,P_Name: soap,P_Price: 45
P_Id: 44,P_Name: card,P_Price: 64
P_Id: 22,P_Name: bag,P_Price: 76
P_Id: 55,P_Name: brush,P_Price: 79
|
```

Q3. Exceptions

```
Enter a number:
-5
Error: Number cannot be negative.
|
```

Q4. Delegates

```
C:\DotNet_Training\CSharp\A X
Enter first number: 9
Enter second number: 5
Addition:
14
Subtraction:
4
Multiplication:
45
